

Donner Filtration cartridge INT A / C

Pool & Spa filter. Kompatibilní modely: Intex typ A / Intex typ C, Intex 2900E / 59900E

EAN: 8596220012951

3,96 €

3,30 € bez DPH

The Donner INT A/C filtration cartridge is designed for filtering water in whirlpools and pools. The filter helps to remove impurities, dust, and other dirt. It ensures crystal clear water. We recommend cleaning and changing the filters regularly.

The filter cartridge for pools and spas INT A C is certified and tested by the organization IAPMO according to NSF/ANSI 50. The filter uses materials free of lead and BPA.

The INT A-C filter cartridge, designed **for pools and hot tubs**, is made of Trilobal fabric. This increases the filtration area, which traps more impurities without reducing water flow. Thanks to the innovative Dirt-Locking technology, the fabric captures much more impurities than normal fabric. This filter removes hair, leaves, dust, sediments, sand, etc.

Reinforced end caps are not only resistant to breakage, but also highly resistant to chemicals commonly found in pools and spas. The unique structure of the filter fabric makes it easy to capture a large volume of impurities. The filter can be easily washed and cleaned. After cleaning, the filter is like new again and ready for the next use.

Key features of the DONNER CARTRIDGE FILTER INT A/C

- certified NSF/ANSI 50
- filtration efficiency up to 95%
- executive filtration performance
- end cover with high resistance to chlorine

- long lifespan
- easy cleaning
- content of package 2 pieces
- 2-year warranty

Dimensions of the DONNER filter INT A-C in mm and inches

- outer diameter: 108 mm (4 1/4")
- height: 203 mm (8")
- average upper opening: 45 mm (1 3/4")
- average bottom opening: 45 mm (1 3/4")

Donner filter INT A-C is compatible with the following filter models: Intex type A, Intex type C, 59900E, 2900E, Marimex 10691001,

Applicable, for example, to pools in Orlando, Tampa.

The spare filter insert is suitable for cartridge filtration M1, M2, Skimfiltration Orlando, for cartridge filtration with a flow rate of 2-5 m³/hour.

Parameters

Basic parameters

Filtering properties:	cartridge
Filters for:	hot tub, swimming pool, spa
The external diameter of the filter (in cm):	10.8
Inner diameter of the HORNÍ filter (in cm):	4.5
Inner diameter of the BOTTOM filter (in cm):	4.5
Filter length (in cm):	20.3
Content of the package (pcs):	2
Warranty:	2
HS code:	42121

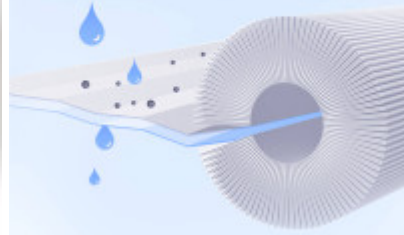

Packaging dimensions

Width of the packaging (in cm):	22
Height of the package (in cm):	22
Depth of the packaging (in cm):	12
Weight of filter 1pc (kg):	0.139
Weight including packaging (kg):	0.404

More Efficiency

Uniformity and high-performance trilobal fibers ensure dependable filtration over time.

NSF/ANSI 50 Certified

NSF/ANSI 50

Certified by IAPMO R&T according to NSF/ANSI 50 standard for material safety.

VS

Advanced Trilobal Fabric

Point Bond Fabric

The thickness and trilobal fibers shape packs in more dirt than the competition, which means less filter cleaning for customer.

Durability & Cleanability

With reinforced center core and superior thickness fabric, filter cartridge stands strong under and holds up to the rigors of multiple cleanings.

Product Parameters

- Outer diameter: 4.13"
- Length: 8"

Compatible Models

- intex 29000E
- intex 59900

Výhody filtrů Donner

Trilobal vlákna

Standardní vlákna

Tvar příčného řezu trojstranného zaobleného profilovaného syntetického vlákna zajišťuje, že se zachytí více nečistot oproti běžnému kulatému vláknu z důvodu větší filtrační plochy
