Pool & Spa filtr. Kompatibilní modely: Intex Type S1, 29001E, Intex S1

EAN: 8596220012371

**6,00 €**

5,00 € bez DPH

**Donner INT S1 filtration cartridge** is designed as a replacement for the INTEX S1 filter. It is therefore compatible with all Intex Pure Spa whirlpools. The filter for pools and spas has been tested and certified by the IMPMO organization in accordance with NSF/ANSI 50. The filter uses lead-free and PBA-free materials. The filtration cartridge has an opening on both sides.

The INT S1 filter cartridge for pools and spas is made **of a special Trilobal fabric**. The filtration area is enlarged and improves the filtration and retention of dirt without reducing water flow. The innovative Dirt-Locking technology causes the fabric to capture much more dirt than ordinary fabric. The INT S1 filter effectively removes hair, leaves, dust, sediment, sand, etc.

The filter is equipped with reinforced end covers that are **resistant to breakage and chemicals** commonly found in pools and hot tubs.

For brilliantly clean water, we recommend regularly changing (approximately once a month) and cleaning (approximately once a week) the filter. The INT S1 filter **can be easily cleaned and rinsed** with a flow of water. After rinsing, it is ready for further use.
