EAN: 8596220012739

128,04 €

106,70 € bez DPH

The brand **Granisil** represents a mark of high quality and luxurious design. Granisil sinks contain over 80% granite and quartz. Thanks to the presence of natural stone, it is a very durable material. Granisil is completely safe for contact with food.

The kitchen sink Granisil Eldos 560 with its simple and minimalist details fits into both modern and rustic kitchens. Due to the fact that this sink does not have a draining area, it saves space on the kitchen counter. An ideal sink model for smaller kitchens.

The Eldos 560 sink, which features a **spacious and deep (19 cm) basin**, may appear smaller at first glance. It allows you to comfortably wash larger dishes such as bulky pots or baking trays. The back surface of the sink allows for the installation of a kitchen faucet, a recessed soap dispenser, or a button for controlling the kitchen waste disposal unit. The sink is designed for top mount installation. The slightly rounded edges of the sink make cleaning and maintenance easier. Inside the basin, there is a hidden elegant overflow that prevents any potential water overflow over the sink.

The package of the sink includes a **space-saving siphon** that saves space under the sink in the cabinet. Thanks to this, you can place, for example, a bin for sorted waste under the sink. The included siphon also has the option of being connected to a dishwasher or washing machine.

Granisil sinks are produced using innovative technology **NANO Granite**, which makes the products resistant to high temperatures, impacts, thermal shocks, scratches, and stains. The high quality of materials and perfect craftsmanship guarantee a long lifespan of the sink. That is why Granisil sinks come with a 10-year warranty. Granisil sinks are made from the highest quality blend of granite aggregate (80%) and resin (20%).

Key features of the GRANISIL ELDOS 560 kitchen sink

- granite kitchen sink without a drainer in black color
- The Eldos 560 has an extended 10-year warranty.
- ideal model of a sink for smaller kitchens
- it has a very spacious and deep 19 cm sink chamber
- The sink is intended for top mounting.
- suitable for a cabinet of 60 cm
- made using innovative NANO Granite technology
- from the lowest quality materials, granite mixture and resin

How to keep the sink always like new?... Regular care is sufficient. Cleaning is not difficult at all, a damp soft sponge for dishes and a little common dish soap will do. Wash the sink with circular motions, especially carefully around the faucet and drain. Then rinse with clean water and dry.

Parts of the packaging:

- Sifon
- Release.
- Robbery
