The granite double sink by Reginox Amsterdam 860.1 brand has two basins of different sizes. Which ensures maximum comfort when washing and rinsing due to optimal utilization of available space. Thanks to the arrangement, you will have a larger basin for washing bulky dishes, and in the smaller one, you can possibly place washed dishes, drain potatoes, pasta, or rinse vegetables. From a practical point of view, two basins are very useful.

The back surface in the smaller basin provides enough space for installing other components, such as a soap dispenser and a button for controlling the kitchen waste disposer. For these purposes, two holes have been drilled.

The **Amsterdam 860.1** sink has a simple design and will be a great addition in industrial, modern, and minimalist kitchens.

The advantage and benefit of **Reginox** brand products is not only their high-quality material and design, but also the smooth surface of the sinks, and therefore their easier subsequent maintenance.

Less dirt settles on smooth surface. **Reginox** sinks are resistant to impacts, scratches, and other mechanical damage.
