367,70 € bez DPH

The ceramic single sink with a drainer **Reginox Modena 1000.0** is made in the Netherlands from very high-quality materials. The sink will become a decoration for your kitchen and meet all your expectations

The advantage of this sink is the flat storage surface without grooves for easy maintenance and cleaning. The practical sink with a drainer enlarges the workspace.

You can orient the sink according to your preferences, with the drainer on the right or on the left. The sink's glaze is smooth, long-term exposure to sunlight or even aggressive materials will not change the color or surface of the sink.

The surface of the sink is resistant to heat, thermal shocks, it does not absorb odors, and limescale and other impurities do not adhere to it. The sink is colorfast and remains beautiful for a long time

The ceramic sink **Reginox Modena 1000.0** fits perfectly in modern kitchens, as well as in kitchens in rustic or country style.

The ceramic sink is fired in kilns and the glaze is applied by hand, making each piece unique. It is necessary to take into account a tolerance of +/- 1-1.5 cm in size. We recommend having the sink physically with you to realize the kitchen unit.
