The **Spring Source CMF003** coffee maker filter is compatible with the Bosch Siemens TCZ60003 / Krups F08801 filter. It is installed directly into the water tank. It adjusts the water pH to neutral.

**Spring Source CMF003 filter cartridge** contains high-quality ion exchange resin and activated carbon, which stabilize calcium carbonate and remove impurities. This improves the taste and aroma of coffee. The filter increases the performance and efficiency of the coffee maker. It also prolongs its lifespan by keeping the machine clean. It prevents the coffee maker from getting contaminated due to calcium deposits.

The Spring Source CMF003 water filter takes care of improving water quality and **prevents limescale build-up** inside the coffee machine.

The filter is made of food-grade materials certified by NSF, without any lead content. It does not contain any harmful substances. It complies with European regulations on food quality EC-1935/2016, ROHS, REACH, BPA-Free, TUV.

We recommend **changing the filter every two months** in the coffee maker. The replacement of the filter is very quick and easy.
