The replacement water filter **Spring Source CMF006** is compatible with the water filter **DeLonghi DLS C002**.

Spring Source CMF006 filter insert contains high quality ion exchange resin and activated carbon, which stabilize calcium carbonate and remove impurities. This improves the taste and aroma of the coffee. The filter increases the performance and efficiency of the coffee maker. It also prolongs its lifespan, as it keeps the machine clean. It prevents the coffee maker from getting contaminated due to calcium deposits.

The Spring Source CMF006 water filter takes care of improving the water quality and thus **prevents the formation of limescale** inside the coffee machine.

The filter is made of food-grade materials certified by NSF, without any lead content. It does not contain any harmful substances. It complies with European regulations on food quality EC-1935/2016, ROHS, REACH, BPA-Free, TUV.

We recommend changing the filter in the coffee maker every two months.
