Dřez se instaluje pod pracovní desku. Hloubka vaničky 20 cm

EAN: 4051202319380

541,68 €

451,40 € bez DPH

The European premium brand **Villeroy & Boch** was established in 1748. With its products, it is represented in more than 125 countries around the world. Villeroy & Boch is an innovative company with a long tradition - it is one of the most important brands in Germany, Europe, and the world. As a ceramics manufacturer, it has developed into an international lifestyle brand.

The **Subway 375 sink** belongs to the prestigious collection of sinks by **Villeroy Boch**. The sink creates an elegant and simple impression. It fits perfectly into various kitchen styles, such as the Vintage style, rustic style, and more.

The sink has one main compartment. The sink is smaller in size, so it will fit well in smaller kitchens or where a dishwasher is preferred. Villeroy & Boch Subway 375 is a **sink designed for undermount installation**. This installation is recommended for natural stone, marble, composite materials, or glass countertops. The sink's edge is sealed with a sealing material, and the sink's rim forms a worktop and is secured from below with special mounting brackets. We do not recommend installing the undermount sink in wooden or laminate countertops, where frequent contact between the edges of the countertop and water could cause damage.

The surface of the Villeroy & Boch Subway 375 sink is treated with the CeramicPlus system. This means that the sealed, non-porous ceramic surface prevents dirt, cooking waste, and unsightly limescale from getting caught on your kitchen sink. The time spent in the kitchen will thus become a true pleasure.

Key features of the VILLEROY & BOCH SUBWAY 375 kitchen sink (Subway 45 SU Undercounter

332401)

- white ceramics, one sink, without a drainboard
- Subway 375 has an extended warranty of 5 years.
- ideal sink for smaller kitchens
- it will fit perfectly into the so-called style of rustic kitchens
- Original and luxurious design
- intended for installation under the worktop
- High-quality ceramic sink made from 100% natural materials.
- craftsmanship supported by 270 years of ceramic experience
- Thanks to CeramicPlus, it is easily maintained in cleanliness.

A ceramic sink is fired in kilns and the glaze is applied by hand, making each piece unique. It is necessary to take into account a tolerance of +/- 1-1.5 cm in dimensions. We recommend having the sink physically available for the realization of the kitchen counter.

Parts of the packaging:

- Sifon
- Release.
