The luxury European premium brand **Villeroy & Boch** dates back to 1748. It is represented in more than 125 countries worldwide with its products. Villeroy & Boch is an innovative company with a long tradition - it is one of the most important brands in Germany, Europe, and the world. As a ceramics manufacturer, it has evolved into an international lifestyle brand.

The exclusive ceramic single sink **Villeroy & Boch Single 595 White Pearl** will bring timeless design to your kitchen. Thanks to the original polished White Pearl Décor on the front of the sink, it will become the focal point of the kitchen. The sink will complement and enhance the appearance of your kitchen, adding a touch of luxury. The Villeroy & Boch Single 595 White Pearl sink with a visible front will stand out in any kitchen and can be placed in a kitchen island. The ceramic sink from Villeroy & Boch blends harmoniously with the traditional style of a Provencal country kitchen and modern style.

The Single 595 sink basin is sufficiently deep (18 cm) for comfortable dishwashing. The standalone **modular sink** is designed for a 60 cm cabinet. Villeroy & Boch Single 595 White Pearl falls into the category of modular sinks. This means that they are not firmly attached to the countertop. They are mounted directly on the installation cabinet, and the countertop is either pressed against both sides or overlaps the edges of the sink from the top. Modular sinks are preferably recommended for installation with non-absorbent countertops. If a solid wood countertop is to be used, it is important to ensure high-quality impregnation of the cutout edges in the countertop.

The advantage of a ceramic sink is its easy maintenance and color stability. Even long-term exposure to sunlight or aggressive materials will not change the color or surface of the sink. The surface of the Villeroy & Boch Single 595 White Pearl sink is treated with the CeramicPlus system. That means the sealed non-porous ceramic surface prevents dirt, cooking waste, and unsightly lime scale from sticking to your kitchen sink. The time spent in the kitchen will thus become a real pleasure.
